# Reproducibility and Real Data

#### 1.1 Some Truth

"All models are wrong, but some are useful."

- George Box, 1976, Journal of the American Statistical Association

## 1.2 Critical Thinking, Analytics, and Reproducibility

### Today's agenda

- Vaccines
- Stanford's President
- Target
- Dataset 1 (Marathon Kids; size, means and correlation?)
- Dataset 2 (Starwars, tallest Homeworld?)
- Dataset 3 (NFL; 4th down?)
- See if we've had fun
